

# YOUR AIA Vitality DATA

## Why does AIA Vitality collect your Personal Information\*?

We collect your Personal Information so that we can administer your membership and offer you the AIA Vitality member associated benefits.

### For example:

- Discounts on your insurance premiums
- Discounts on Partner products
- Vouchers for Partner products and services

## Is my data secure? Where does my Personal Information\* go and who can see it?

AIA takes Information Security seriously and has processes and secured systems in place to ensure your Personal Information is safe. Your Personal Information is stored in secure AIA data centres in New Zealand, Australia, Hong Kong and Singapore and approved third party service providers. It can be accessed by authorised AIA Vitality staff who manage your membership and answer any queries you may have. It can also be accessed by authorised vendors of AIA who have appropriate AIA credentials to support point allocation and management of your membership.

## Where is my health data stored and who can see it?

The health information that you choose to share (via the member portal or via a Partner health or fitness provider) is stored anonymously in the AIA Vitality database in Hong Kong and Singapore. It is used to calculate your points and status however it is not stored with your Personal Information. Your health data is accessible by authorised AIA Vitality staff in Australia and New Zealand for membership services. It is not shared with AIA New Zealand for insurance claims or underwriting purposes.

### Examples of health data are:

- Measurable health data - BMI, Blood pressure etc
- Record of uploading proof of health checks

Note: Actual forms or images of forms that are uploaded are stored in Australia as these will contain your Personal Information.

## What about my fitness data?

When you choose to pair a fitness device or app with your AIA Vitality membership the following information will be shared with AIA Vitality:

- Steps
- Sleep
- Speed
- Heart rate
- Calories

This information is stored in Amazon cloud storage hosted in the United States. It is used to apply activity based points however it is not stored with your Personal Information. You cannot be identified by this data. This information is accessible by Discovery Holdings Limited (SA) (Discovery South Africa) staff in South Africa to enable them to resolve issues with your fitness device data. The aggregated data may also be used for scientific and product research purposes.
